

Why is it important for me to study English? (Original Text)

English will help me to speak with foreign people from many countries. It can help me to know more about different countries. People can tell me a lot about cultures of their countries. I can learn a lot about their everyday lives. I am interested in world religions. I like popular music from other parts of the world. Discussing problems and difficulties of different countries is also interesting.

I am interested in talking with teenagers because we are the same age, and we can talk about music, videogames, and books. Talking with adults is interesting too because we can discuss cultures from different countries.

I want to talk with people from English speaking countries. I am interested in America because many books and movies were made by Americans. The English monarchy has a fascinating culture with a lot of monuments. I want to know more about Canada. Australia has a lot of unique animals that I want to see. I chose these countries because English is the official language of these countries.

I have read *Divergent*, *The Adventures of Sherlock Holmes* and *Inferno*. These books were very interesting and I want to be able to read more books. I enjoy reading fantasies and adventures. The Lord of the Rings was a very interesting movie. There were a lot of different types of creatures and different types of fantasy characters. The storyline was enjoyable. Now I am trying to watch the English version of "The Avengers," without subtitles.

Knowing English will be good for my future job. If I learn English, my boss will be able to send me abroad. I would love to spend some time in Italy, China, Germany and France. Many companies require people who can speak English. But it is very difficult to find them in Russia. Companies give more money to them. I would like to be an IT Engineer. Web Development is intriguing because it has something to do with internet languages.

English will help me a lot while I am travelling. I will be able to find English-speaking people in different countries and ask them for help. When I travel, I will be able to encounter many English words and understand them. I will not need a translator. Stores in many countries use English to describe items that are for sale. It is a good thing because I will understand the descriptions of many of those things.

Learning languages is good for my mental development. When I learn English vocabulary and grammar my memory improves. When I speak English I have to figure out what words to use, how to use them properly, and I have to think quickly.
